3M™ Fasara™ Glass Decorative Films

3M Fasara Glass Decorative films are a series of tough, dimensionally stable, polyester translucent films. They are ideal when privacy and decoration are the key requirements. Glass partitions in offices, windows and doors can now be transformed with fully or partially filmed panes, cut to stripes, logo, shape or text and border decorations. Their low gloss surface reduces glare while blocking up to 99% of UV light, thereby reducing fading on fabrics. They also increase personal safety from flying glass and can be removed when required.

FAB Table

Features	Advantages	Benefits
Polyester film	Rigid and tough	More durable
Stylish patterns	Aesthetically pleasing Alternative to sandblasting	Creativity options Cost saving
Low gloss surface	Reduces glare while blocking out 99% of UV light	Reduces fading on fabrics
Anti shatter	Minimises the danger of fractured or flying glass	Increases personal safety
Anti bacterial coating	Resists finger marks	Less cleaning
Obscurity film	Personal privacy Maximising light transmission	Optimising work space environmental conditions
Pressure sensitive adhesive	Ease of application (wet and dry) Easily removable	Can be applied on site – no need to remove glass Flexibility to change more regularly
Horizontal and vertical application	Choice	Versatility
Warranty	Last for up to 5 years	Peace of mind

Film Features*

Suitable for indoor and outdoors?	Indoors only
Typical uses	Internal glass partitions, windows & doors. Fully or partially filmed panes. Border decoration
Suitable application surfaces and substrates	Glass only
Maximum warranty	Warranted against cracking, creasing, peeling and delaminating for 5 years
